

CHAMBER WELCOME

Barry County Chamber Staff

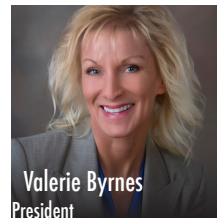

On behalf of our Board of Directors and members of the Barry County Chamber of Commerce, I am thrilled to familiarize you with our members and local communities throughout Barry County.

Our 340 members include area businesses, non-profit organizations, and individuals that dedicate their time, talents and resources to ensuring Barry County is a healthy and vibrant community in which to do business, live, work or visit.

The Chamber works diligently to engage our members through training, education, information-sharing, and networking as well as supporting local business groups across the county as they embark on grass-roots efforts to develop local community spirit and economic growth.

Whether you are a business owner, resident or visitor, we hope you visit and enjoy the Chamber members listed in this directory. Shopping locally builds the businesses that enhance our local communities.

BARRY COUNTY ECONOMIC DEVELOPMENT ALLIANCE

Economic development strategies cultivate growth, leadership and investment. Growth in our local economy helps to create livable-wage jobs, strengthen existing and new employers and increases the Barry County tax base to further solidify local community stability. When combined, all these attributes (and more) contribute to a vibrant and healthy community in which to invest, live, work and play.

As a public/private partnership, the Barry County Economic Development Alliance brings together many resources including leaders representing business, industry, municipal government, non-profit and many other interested parties to accomplish our mission to create an environment for the retention and expansion of business and industry in Barry County. We work closely with businesses and entrepreneurs to assist them in accomplishing their goals for growth and success. Our partnership with local communities assists in developing necessary infrastructure and resources to ensure development readiness.

The BCEDA is led by a committed group of leaders representing a cross-sector of local communities and business sectors. The Board of Directors established the following primary goals for the organization to include:

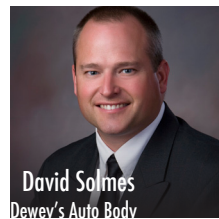

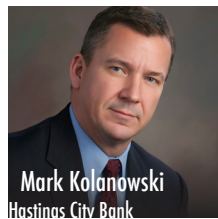

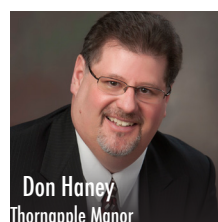

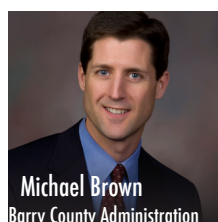

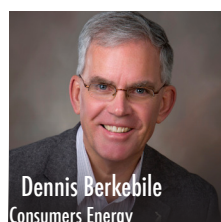

- I. Grow our economy through entrepreneurship and business development
 - a. Business 411 – one stop shop for business development and growth assistance
 - b. Support local educational systems to prepare youth and young adults for local jobs in industry
 - c. Leverage technical training resources and higher education to support employability skills training

THE 7 ELEMENTS OF A

WHAT IS IT ???

THE Healthy Community framework is a vision of what strong community life could look like and how philanthropy can play a role in creating it. Using this framework, we are able to see how we can help build a high quality of life for all Barry County residents by focusing on seven core areas, or elements. With this sense of community, philanthropy becomes more than minimizing problems. Using the Healthy Community framework, we can help all residents improve their lives and the lives of others.

THIS framework is used to demonstrate how we can make a difference in the local community, regardless of philanthropic experience, interests or goals. It will help to more thoroughly examine each sector or element of our community (even though they are very interdependent on each other) and can be used to lay out a long term improvement strategy for Barry County.

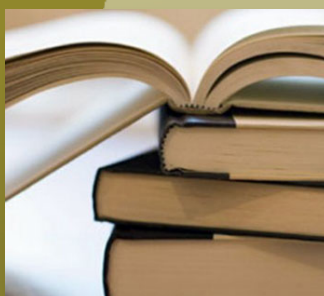

HEALTH AND WELLNESS

A healthy community assures access to high quality health services at a personal, community and systems level while promoting a healthy lifestyle.

ECONOMY

A healthy community fosters an economy that is diverse, vital and innovative. It grows strong businesses and business districts, that create adequate jobs and income for residents.

EDUCATION

A healthy community opens itself to new ideas and provides high quality education and life-long learning for all residents of the community.

BASIC NEEDS

A healthy community creates a compassionate social, economic, and political environment where people have full opportunities to meet basic needs for themselves and their families, to build assets, and to advance themselves.

BUILDING A HEALTHY COMMUNITY

HEALTHY COMMUNITY

ENVIRONMENT

A healthy community helps preserve and sustain the environment.

ARTS AND CULTURE

A healthy community encourages a wide variety of recreational, historical and cultural opportunities.

NEIGHBORHOODS AND COMMUNITIES

A healthy community assures equal opportunity for all individuals to participate in and influence decisions that affect each of their lives and embraces diversity and promotes a "sense of community."

OUR PRIORITY

FOR the next three years the Barry Community Foundation has elected education as its priority focus area. During this time period we will direct 40% (nearly \$20,000 per year) of our unrestricted grant making dollars to create a community that believes in education and lifelong learning.

HOW CAN YOU HELP?

VISIT us through the "Giving Center" located on our new website at www.barrycf.org. Here you will find a comprehensive listing of funds categorized according to each of the seven elements. With new website features it is easy to give online to your area of interest! Whether your dreams are to inspire, renew, restore or preserve the Barry Community Foundation has many options to help you fulfill your philanthropic aspirations.
